

INTRODUCTORY VIDEOS

Following are introductory Videos on EDUCAST Virtual Teaching & Training projects, we have also introduced for the first time in Pakistan, Telepresence Robot (Edu-Robot), to provide a 360 degree Virtual theoretical Training and with Telepresence Robot, The remote trainer dial in the Robot and travel to trainee desk and monitor and provide personalized assessment at individual level and do monitoring and quality check.

This platform is most advance in the field of Vocational and Skill development. The entire training process is also recorded and also live telecasted to multiple location for a wide trainee to see how the training is done.

EDUCAST Brings another first in Virtual Teaching

“Edu-Robot” takes the

- “Teacher any where at the desk of remote Students”
- “Trainer any where on desk of a trainee at the remote center”
- “Medical Specialist at Patient bedside for tele-treatment”.

Revolution
in creating Virtual presence of
Subject specialist at remote locations
